

The image shows the interior of a restaurant named Alice House. The space is characterized by a rustic and industrial aesthetic. The ceiling is a complex network of black wires with numerous warm-toned Edison-style light bulbs hanging from it. The walls are made of rough-hewn stone and brick. In the foreground, there are several wooden tables and chairs. A white table on the left holds a tray of pastries. A chalkboard menu is visible in the background. The overall atmosphere is warm and inviting.

BRING A FRIEND

The Library is our private room to the
rear of the venue where we promise
that reading is not compulsory.

It has space for 35 people seated or
70 standing, if you want a little more
space add the area just outside by the
bar for an extra 30 people.

If you need even more room then take
over the whole venue for up to 280 of
your nearest & dearest.

A FEW EXTRAS

The Library has a built in plasma screen that you can connect to any mac or pc and either stream live tv or use for presentations. Pre-order your drinks and we'll set up the self-serve area and keep it topped up for you all night. Dock your ipod and stream your own music just to your space. Booking the whole venue? Then we can help you keep the party going with your own dj, security and anything else you might need.

USE US

It's your party and your space, so have fun with it. Book your birthday, engagement or end of project party or come together and enjoy some mid-week cocktails just because you can.
